INDEPENDENT AUDITORS' REPORT

The Board of Trustees of
Elgin Independent School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Elgin Independent School District (the "District"), as of and for the year ended August 31, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Correction of Errors

As described in Note 18 and Note 19 to the financial statements, the District's government-wide and fund financial statements as of and for the year ended August 31, 2012 have been restated to correct certain misstatements. Our opinions are not modified with respect to these matters.

Emphasis of Matter

As described in Note 1 to the financial statements, in 2013, the District adopted new accounting guidance, Governmental Accounting Standards Board ("GASB") Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements, other schedules, and the schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, other schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements, other schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 17, 2014 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

ELGIN INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Elgin Independent School District's (the "District") annual financial report presents our discussion and analysis of the District's financial performance during the year ended August 31, 2013. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position at August 31, 2013 was approximately \$8.7 million.
- The fund balance for the General Fund at August 31, 2013 was approximately \$13.7 million, an increase of approximately \$598 thousand from the prior year, as restated.
- In May 2013, the District issued \$8.43 million of Series 2013 Refunding Bonds to advance refund previously issued bonds in order to lower its overall debt service requirements. This resulted in an economic gain of approximately \$994 thousand.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three parts: 1.) government-wide financial statements, 2.) fund financial statements, and 3.) notes to the basic financial statements. This report also contains required supplementary information and other financial information in addition to the basic financial statements themselves.

Government-wide financial statements - The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to that of a private sector business.

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator as to whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods such as uncollected property taxes.

The government-wide financial statements distinguish functions of the District that are principally supported by taxes, intergovernmental revenues, and user fees and charges (governmental activities). The governmental activities of the District include the education of District students and the programs necessary to support such education.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements.

By doing so readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains numerous governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and Debt Service Fund as they are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for the General Fund. A budgetary comparison statement has been provided for this fund to demonstrate compliance with this budget. Supplementary budgetary comparison schedules have also been prepared for the Food Service and Debt Service Funds and are included in the Combining and Individual Fund Statements section of this report.

Fiduciary Funds - The District is the trustee, or *fiduciary*, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information - The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to basic financial statements. In addition, certain information required by the Texas Education Agency and the federal government regarding tax collection, food service, grant expenditures, and indirect cost calculation is also presented.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

This two-year comparison provides an indication of the District's financial wellbeing. Increases and decreases in net position may serve over time as a useful indicator of a government's financial position. As of August 31, 2013, the District's combined assets and deferred outflows of resources exceeded its liabilities by \$8.7 million, which is comparable to the prior year combined net position of \$7.5 million (as restated).

Net position for the year ended August 31, 2013 as compared to the year ended August 31, 2012, as restated, can be presented as follows:

**Elgin Independent School District's
Net Position**

	(in thousands)	
	August 31, 2013	August 31, 2012
Current assets:		
Cash and temporary investments	\$ 16,962	\$ 16,394
Property taxes, net	947	900
Due from other governments, as restated	588	355
Other assets	68	35
Total current assets, as restated	18,565	17,684
Non-current assets:		
Capital assets, net of accumulated depreciation, as restated	65,461	68,152
Total assets, as restated	\$ 84,026	\$ 85,836
Deferred outflows of resources-		
Deferred charges on refundings, as restated	\$ 1,835	\$ 666
Current liabilities:		
Accounts payable and accrued liabilities	\$ 1,869	\$ 1,962
Bond interest payable	560	535

Capital lease payable	159	154
Unearned revenue	94	7
Total current liabilities	6,167	5,808
Long-term liabilities:		
Bonds and accretion payable, as restated	70,502	72,547
Capital lease payable	487	646
Total liabilities, as restated	\$ 77,156	\$ 79,001
Net position:		
Net investment in capital assets, as restated	\$ (5,967)	\$ (6,366)
Restricted	1,086	822
Unrestricted	13,586	13,045
Total net position, as restated	\$ 8,705	\$ 7,501

The District covers 165 square miles and is located in the northwest portion of Bastrop County, with segments in eastern Travis County and southern Williamson County. Property values have increased an average of 3% over the last five years. Enrollment has increased by 11% over the last five years.

Investment in capital assets (e.g., land, construction in progress, buildings and improvements, and furniture and equipment) less any related debt used to acquire those assets that is still outstanding is a negative \$6.0 million, meaning that the District has incurred more debt than it has capital assets at this point in time and/or that capital assets are being depreciated at a faster rate than debt is being paid down. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, generally property taxes, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position (\$1.1 million) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$13.6 million) may be used to meet the District's ongoing obligations. This surplus is not an indication that the District has significant resources available to meet financial obligations next year, but rather the result of having long-term commitments that are less than currently available resources.

Net position may be restricted for a variety of uses by the District. These restrictions are imposed by bond covenants or grant agreements. Restricted net assets are available for use in the designated areas only. Unrestricted net position may be used by the District to meet ongoing operating obligations as determined by the Board of Trustees (the "Board").

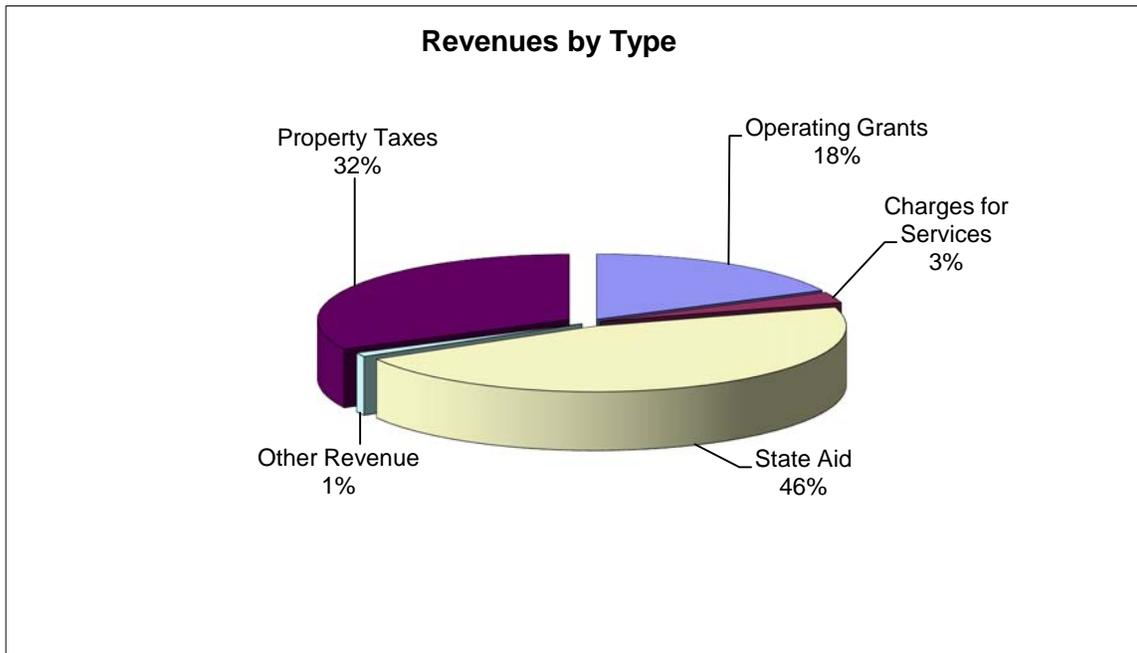

Government-wide activities

Governmental activities increased the District's net position by \$1.2 million during the year ended August 31, 2013. Key elements of this increase are as follows:

Elgin Independent School District's Changes in Net Position

	(in thousands)	
	Year Ended August 31, 2013	Year Ended August 31, 2012
Revenues:		
Program revenues:		
Charges for services	\$ 1,107	\$ 1,137
Operating grants and contributions	7,420	7,396
General revenues:		
Property taxes	13,604	12,958
State aid – formula grants, as restated	19,431	17,169
Investment earnings	136	130
Miscellaneous	270	290
Total revenues, as restated	41,968	39,080
Expenses:		
Instructional	20,299	20,134
Instructional resources	383	418
Curriculum and staff development	482	267
Instructional leadership	998	707
School leadership	1,952	1,706
Guidance, counseling and evaluation services	1,098	969
Social work services	98	93
Health services	287	262
Student transportation	1,460	1,597
Food services	2,247	2,237
Extracurricular activities	1,542	2,050
General administration	1,164	1,120
Facilities maintenance and operations	4,206	3,805
Security monitoring services	228	109
Data processing services	515	402
Community services	200	221
Debt service, as restated	3,362	4,534
Facilities acquisition and construction	58	78
Payments related to shared services arrangements	21	8
Other intergovernmental charges	164	184
Effect of prior period adjustment to capital assets	-	1,445
Total governmental activities, as restated	40,764	42,346
Change in net position, as restated	1,204	(3,266)
Net position beginning, as restated	7,501	10,767
Net position ending, as restated	\$ 8,705	\$ 7,501

Overall property taxes account for 32% of the District's revenue sources while state funding represents 46%. Operating grants account for 18% of revenue sources.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental funds

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$15,655,845. Of this amount, \$12,229,358 constitutes unassigned fund balance available for use in the General Fund activities at the District's discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate that it is not available for new spending because it is in nonspendable form or it will be used for bond projects, debt service and other obligations of the District.

The Texas Education Agency recommends that districts keep a fund balance that is between 12% to 20% of annual general fund operating expenses. As a measure of the General Fund's liquidity, unassigned fund balance represents 41% of the total General Fund expenditures.

The Debt Service Fund has a total fund balance of \$731,476, all of which is restricted for the payment of debt service. The net increase in fund balance during the year in the Debt Service Fund was \$113,908. This increase was primarily due to an increase in property tax revenue due to increasing property values in the District. For the 2012-13 fiscal year, the District adopted a maintenance and operations tax rate of \$1.17 per \$100 in valuation and a debt service rate of \$0.37.

Other governmental funds, which consist of the Capital Projects and Special Revenue Funds, have total fund balances of \$1,268,385, an increase of \$128,994 since last year. Overall, fund balance related to the Special Revenue Funds has increased by \$125,051, and the fund balance for the Capital Projects Fund has increased by \$3,943. Combining schedules for the Special Revenue and Capital Projects Funds are provided in this report on pages 38 through 43.

BUDGETARY HIGHLIGHTS

The District had one budget amendment during the 2012-13 fiscal year that increased the budget by \$64,000 for high school band uniforms. The rest of the amendments were to move money between functions. There was a transfer of \$307,700 from school leadership to various other functions to fund stipend and equity adjustments as proposed by a TASB salary study, to fund the salary of an interim CHS principal, and to fund additional expenditures for counseling consultants. There was a \$574,400 amendment to transfer funds among functions for vestibules at three campuses for increased security, for a career center at the high school, for pre-k program expenses, for building improvements at Neidig Elementary's Life Skills program, and for electronic storage of high school student records. There were two amendments totaling \$1,100,000 to transfer funds from the General Fund to the Debt Service Fund to make annual debt service payments. Even with this transfer, General Fund fund balance increased \$598,243 for the year ended August 31, 2013.

Key differences between the final amended budget and actual amounts can be briefly summarized as follows:

- Excess budgeted instructional expenditures related to the growth fund for teacher salaries, campus supplies and materials, travel, and contracted services
- Excess budgeted student transportation expenditures related to fuel, parts, and payroll
- Excess budgeted facilities maintenance and operations expenditures related to utilities, supplies and equipment, and payroll

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of August 31, 2013 amounts to \$65.5 million (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, and furniture and equipment.

**Elgin Independent School District
Capital Assets
(Net of accumulated depreciation)**

Land	\$	1,485,355
Construction in progress		473,959
Buildings and improvements		62,012,557
Furniture and equipment		1,489,460
Total	\$	<u>65,461,331</u>

Additional information on the District's capital assets can be found in Note 7 of this report.

Long-term Debt

At the end of the current fiscal year the District had total bonded debt outstanding of \$74.0 million. The bonded debt constitutes a direct obligation of the District from a continuing, direct ad valorem tax levied against all taxable property of the District without legal limit as to rate or amount. The bonds are also guaranteed by the corpus of the Permanent School fund of the State of Texas. Both Standard & Poor's Rating Services and Moody's Investors Services have provided bond ratings of A+ and A1, respectively, to the District's outstanding debt obligations.

Additional information on the District's long-term debt can be found in Note 9 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered population growth and available resources from State revenues and tax revenues when setting the fiscal year 2014 budget and tax rate. The student population increased by approximately 1.4%. Assessed property values increased by approximately 1% over last year. The District adopted a \$33,210,410 budget for fiscal year 2014. The budget will be funded through a \$1.54 overall tax rate consisting of a \$1.17 M&O tax rate and \$0.37 I&S tax rate, State Per Capita and Foundation revenues, and other local revenues. The total tax rate adopted is the same total tax rate adopted in fiscal year 2013. The 2014 fiscal year budget is approximately 4% more than the 2013 fiscal year final amended budget. If the District does not incur any unforeseen expenditures or reductions in revenues, it should accomplish the task of educating the students in the District with the available resources.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Services Department at Elgin Independent School District (512) 281-3434.

ELGIN INDEPENDENT SCHOOL DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED AUGUST 31, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

This report includes those activities, organizations and functions which are related to the Elgin Independent School District (the "District") and which are controlled by or dependent upon the District's governing body, the Board of Trustees (the "Board"). The Board, a seven member group, is the level of government which has governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. Since the District receives funding from local, state and federal government sources, it must comply with the requirements of the entities providing those funds. However, the District is not included in any other governmental "reporting entity" as defined by Statement No. 14 of the Governmental Accounting Standards Board ("GASB"), since Board members are elected by the public and have decision making authority. In addition, there are no component units included within the reporting entity.

The accounting policies of the District comply with the rules prescribed by the Texas Education Agency's ("TEA") Financial Accountability System Resource Guide. These accounting policies conform to generally accepted accounting principles applicable to state and local governments.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include state and federal program revenues and interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end that are not collected within sixty days of year end are reported as deferred revenue.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balances are considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due. It is a budgeted fund.

Additionally, the District reports the following fund types:

Special Revenue Funds are governmental funds which include resources restricted, committed, or assigned for specific purposes by a grantor or the Board. Federally financed programs where unused balances are returned to the grantor at the close of specified project periods are accounted for in these funds. The District uses project accounting to maintain integrity for the various sources of funds.

The Capital Projects Fund includes the proceeds from sales of bonds and other revenues to be used for authorized construction and other capital asset acquisitions.

The Agency Fund is an unbudgeted fund and is used to account for activities of student groups and other types of activities requiring clearing accounts. This fund has no equity, assets are equal to liabilities, and it does not include revenues and expenditures for general operations of the District.

Budgetary Information

Budgets are prepared annually for the General Fund, Debt Service Fund, and Food Service Fund (special revenue fund) on the modified accrual basis, which is consistent with generally accepted accounting principles. A formal budget is prepared by August 20th and is adopted by the Board at a public meeting after ten days public notice of the meeting has been given. The legal level of control for budgeted expenditures is the function level within the budgeted funds. Amendments to the budget are required prior to expending amounts greater than the budgeted amounts at the function level. Budgets are controlled at the departmental or campus level, the same level at which responsibility for operations is assigned. The budget was amended by the Board as needed throughout the year. The debt service function in the General Fund exceeded budgeted amounts for the year ended August 31, 2013 by \$179,460.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31st, and encumbrances outstanding at that time are to be either canceled or provided for in the subsequent year's budget. There were no material outstanding encumbrances at August 31, 2013 that were provided for in the subsequent year's budget.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Cash and Cash Equivalents - The District considers all liquid investments with original maturities of 90 days or less to be cash equivalents.

Investments - Temporary investments throughout the year consisted of investments in an external investment pool. The District is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper and local government investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Capital Assets - Capital assets, which include land, construction in progress, buildings and improvements, and furniture and equipment, are reported in the governmental activities column in the government-wide financial statements. The District has no infrastructure assets. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000. Such assets are recorded at historical cost if purchased or estimated fair value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Capital assets (other than land and construction in progress) are depreciated using the straight line method over the following estimated useful lives: buildings and improvements - 10 to 30 years, furniture and equipment - 5 to 15 years.

Ad Valorem Property Taxes - Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Accumulated Sick Leave Liability - The State of Texas (the “State”) has created a minimum sick leave program consisting of five days of sick leave per year with no limit on accumulation and transferability among districts for every person regularly employed in Texas public schools. Each district’s local board is required to establish a sick leave plan. Local school districts may provide additional sick leave beyond the State minimum. The District’s policy is not to provide reimbursement upon termination of employment with the District. Accordingly, no liability for accrued compensated absences has been established by the District.

Fund Equity/Net Position - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 10 for additional information on those fund balance classifications.

Inventories - Inventories consist of expendable supplies held for consumption. Inventories are charged to expenditures when consumed. Supply inventory is recorded at cost using the FIFO method.

Federal food commodities inventory is stated at fair value and at year-end is recorded as unearned revenue. Revenue is recognized at fair value when commodities are distributed to schools.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are charged to expenditures when consumed.

Deferred Outflows and Inflows of Resources - The District adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District’s net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District’s acquisition of net position applicable to a future reporting period.

The District adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. See Note 19 for the prior period adjustment related to the adoption of GASB Statement No. 65.

Recently Issued Accounting Pronouncements

In June 2012, the GASB issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27*, effective for fiscal years beginning after June 15, 2014. The objective of GASB Statement No. 68 is to improve accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through certain trusts. GASB Statement No. 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources and deferred inflows of resources, and expense/expenditures. GASB Statement No. 68 also identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. In addition, GASB Statement No. 68 addresses the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. Management is still evaluating the effects that the full implementation of GASB Statement No. 68 will have on its financial statements for the year ended August 31, 2015.

2. CASH AND TEMPORARY INVESTMENTS

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are preservation and safety of principal, liquidity and yield.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines established in the investment policy:

- Obligations of, or guaranteed by, governmental entities
- Certificates of deposit and share certificates
- Fully collateralized repurchase agreements
- Banker's acceptance
- Commercial paper
- Money market funds and no-load mutual funds
- Public funds investment pools

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. Therefore, the District is not exposed to custodial credit risk.

Under the depository contract, the District, at its own discretion, may invest funds in time deposits and certificates of deposit provided by the depository bank at interest rates approximating United States Treasury Bill rates.

At August 31, 2013, the carrying amount of the District's deposits was \$12,785,731 and the bank balance was \$13,291,019.

The District’s deposits with financial institutions at August 31, 2013 and during the year ended August 31, 2013 were entirely covered by FDIC insurance or by pledged collateral held by the District’s agent bank in the District’s name. The deposits were collateralized in accordance with Texas law and TEA maintains copies of all safekeeping receipts in the name of the District.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- Name of depository bank: Prosperity Bank
- Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$28,038,148.
- Largest cash, savings and time deposit combined account balance amounted to \$23,383,598 and occurred during the month of February 2013.
- Total amount of FDIC coverage at the time of highest combined balance was \$250,000.

Investments held at August 31, 2013 consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor’s Rating
Local governmental investment pool- Lone Star	\$ 4,295,190	1	AAAm

The District had investments in one external local government investment pool at August 31, 2013: Lone Star Investment Pool (“Lone Star”). Although Lone Star is not registered with the SEC as an investment company, it operates in a manner consistent with the SEC’s Rule 2a7-of the Investment Company Act of 1940. This investment is stated at fair value which is the same as the value of the pool shares.

Lone Star is governed by an eleven member board of trustees, in which all of the members are also participants in Lone Star. The board meets quarterly to review operations, adopt or make changes to the investment policy, review financial activity and approve contractor agreements. Lone Star also has an advisory board consisting of participants and nonparticipants. RBC Dain Rauscher, Inc. is an independent consultant for Lone Star that reviews daily operations, analyzes all investment transactions for compliance with the Public Funds Investment Act, and performs monitoring activities. The Bank of New York provides custody and valuation services for Lone Star. American Beacon Advisors and Standish Mellon provide other investment management services. Lone Star’s investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

The investments are reported by the District at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Credit Risk - At August 31, 2013, investments were included in a local government investment pool in compliance with the District’s investment policy.

Custodial Credit Risk - Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the District, and are held by either the counterparty or the counterparty's trust department or agent not in the District's name. At August 31, 2013, the District was not exposed to custodial credit risk.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. At August 31, 2013, the District was not exposed to concentration of credit risk.

Interest Rate Risk - As a means of minimizing risk of loss due to interest rate fluctuations, the investment policy requires that maturities for internally created pool fund groups will not exceed the dollar weighted average maturity of 180 days. Maturities of any other individual investment owned by the District should not exceed one year from the time of purchase. The Board may specifically authorize a longer maturity for a given investment, within legal limits. The District considers the holdings in the local government investment pools to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At August 31, 2013, investments were included in a local government investment pool which has a weighted average maturity of one day.

The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policy.

3. APPRAISAL DISTRICT

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code (the "Code") which established a county-wide appraisal district and an appraisal review board in each county in the State. The Bastrop Central Appraisal District (the "Appraisal District") is responsible for the recording and appraisal of all property in the District. Under the Code, the District's Board sets the tax rates on property and the Appraisal District's tax department provides tax collection services. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Further, real property must be reappraised at least every four years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the Appraisal Review Board through various appeals and, if necessary, legal action.

Property taxes are levied as of October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, and penalties and interest that are ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period, including those property taxes expected to be collected during a 60 day period after the end of the District's fiscal year. The assessed value at January 1, 2012, upon which the October 2012 levy was based, was \$873,949,606. The District levied taxes based on a combined tax rate of \$1.54 per \$100 of assessed valuation for local maintenance (general governmental services) and debt service.

In May 1993, the Texas Legislature passed Senate Bill 7. Senate Bill 7 significantly changed certain aspects of the school finance system relative to accountability, teacher appraisal, career ladder, funding allotments, district local share, distribution of Foundation School Funds, tax limitations and rollback tax provisions. Funding equalization for school districts is a major component of the bill. Districts with wealth per student in excess of \$319,500 are required to take action to bring their wealth down to the equalized State level. Each year, the TEA notifies school districts in which property wealth per Weighted Average Daily Attendance (“WADA”) meets or exceeds \$319,500. However, the final determination of whether a school district will be required to make recapture payments is based on the district’s tax effort and the extent to which the district’s wealth per WADA exceeds the first equalized wealth level of \$476,500. The District was not above the equalized wealth level for the 2012-2013 fiscal year.

4. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully fund certain activities. The District also receives entitlements from the State through the School Foundation and Per Capita Programs. These amounts are reported in the basic financial statements as Due from Other Governments and are summarized below as of August 31, 2013.

	General Fund	Debt Service Fund	Nonmajor Governmental Funds	Total
State entitlements	\$ 224,273	68,829	-	293,102
Federal and state grants	-	-	268,101	268,101
Other	21,050	5,265	-	26,315
Total	<u>\$ 245,323</u>	<u>74,094</u>	<u>268,101</u>	<u>587,518</u>

5. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds.” The composition of interfund balances as of August 31, 2013 is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Nonmajor Governmental Funds	\$ 82,466
Debt Service Fund	General Fund	<u>415,018</u>
Total		<u>\$ 497,484</u>

During the year, the General Fund transferred \$1,100,000 to the Debt Service Fund for current year principal and interest payments.

6. UNEARNED REVENUE

At August 31, 2013, the District's nonmajor governmental funds had unearned revenue of \$93,658 from federal and state grants.

7. CAPITAL ASSETS

Capital asset activity for the year ended August 31, 2013 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets, not being depreciated-				
Land	\$ 1,485,355	-	-	1,485,355
Construction in progress	-	473,959	-	473,959
Total capital assets, not being depreciated	<u>1,485,355</u>	<u>473,959</u>	<u>-</u>	<u>1,959,314</u>
Capital assets, being depreciated:				
Buildings and improvements	86,924,942	210,033	-	87,134,975
Furniture and equipment	<u>4,506,695</u>	<u>45,066</u>	<u>-</u>	<u>4,551,761</u>
Total capital assets, being depreciated	<u>91,431,637</u>	<u>255,099</u>	<u>-</u>	<u>91,686,736</u>
Less accumulated depreciation for:				
Buildings and improvements	(22,096,975)	(3,025,443)	-	(25,122,418)
Furniture and equipment	<u>(2,667,669)</u>	<u>(394,632)</u>	<u>-</u>	<u>(3,062,301)</u>
Total accumulated depreciation	<u>(24,764,644)</u>	<u>(3,420,075)</u>	<u>-</u>	<u>(28,184,719)</u>
Total capital assets, being depreciated, net	<u>66,666,993</u>	<u>(3,164,976)</u>	<u>-</u>	<u>63,502,017</u>
Governmental activities capital assets, net	<u>\$ 68,152,348</u>	<u>(2,691,017)</u>	<u>-</u>	<u>65,461,331</u>

Depreciation expense was charged to functions/programs of the District as follows:

Governmental activities:

Instruction	\$ 1,824,067
Instructional resources and media services	37,930
Curriculum and staff development	22,344
Instructional leadership	92,231
School leadership	184,210
Guidance, counseling, and evaluation services	99,945
Social work services	2,543
Health services	28,433
Student transportation	144,471
Food services	222,308
Extracurricular activities	134,747
General administration	115,555
Facilities maintenance and operations	418,386
Security and monitoring services	22,545
Data processing services	50,949
Community services	19,811
Total depreciation expense - governmental activities	<u>\$ 3,420,075</u>

8. DEFERRED OUTFLOWS OF RESOURCES

The following is a summary of changes in deferred outflows of resources for the year ended August 31, 2013:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>
Deferred charges on refundings	\$ 666,069	1,390,160	(221,633)	1,834,596

9. LONG-TERM DEBT

The following is a summary of changes in long-term debt for the year ended August 31, 2013:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>
General obligation bonds	\$ 72,819,984	8,430,000	(11,475,000)	69,774,984
Premium on bonds	2,089,446	1,457,072	(176,625)	3,369,893
Capital lease payable	799,608	-	(153,588)	646,020
Accretion payable	788,027	54,552	-	842,579
Total	<u>\$ 76,497,065</u>	<u>9,941,624</u>	<u>(11,805,213)</u>	<u>74,633,476</u>

Bonded debt consists of the following at August 31, 2013:

General obligation bonds:

Series	Date of Issue	Amounts of Original Issue	Matures Through	Interest Rate	Outstanding at 8-31-13	Due Within One Year
2004	5-15-04	17,015,000	2015	3.25 - 5.00%	960,000	470,000
2005	6-1-05	12,997,711	2024	3.25 - 4.50%	10,825,000	680,000
2006	11-15-06	9,329,984	2029	4.00 - 4.125%	9,229,984	85,000
2007	7-1-07	33,980,000	2026	4.00 - 5.00%	22,770,000	1,400,000
2008	2-15-08	9,500,000	2028	3.50 - 4.00%	8,700,000	425,000
2012	6-1-12	8,860,000	2028	2.50 - 3.50%	8,860,000	425,000
2013	5-16-13	8,430,000	2028	2.00 - 3.50%	8,430,000	-
Total		<u>\$ 100,112,695</u>			<u>\$ 69,774,984</u>	<u>\$ 3,485,000</u>

For the general obligation bonds, the District has pledged as collateral the proceeds of a continuing, direct annual tax levied against taxable property within the District without limitation as to rate. The Texas Education Code generally prohibits issuance of additional ad valorem tax bonds if the tax rate needed to pay aggregate principal and interest amounts of the District's tax bond indebtedness exceeds \$0.50 per \$100 of assessed valuation of taxable property within the District. The District's debt service rate for the current year is \$0.37.

On May 16, 2013, the District issued \$8,430,000 of Refunding Bonds to advance refund \$8,435,000 of previously issued District bonds in order to lower its overall debt service requirements. The net proceeds of \$9,825,160 (after payment of \$56,131 in underwriting fees, insurance, and other issuance costs) was deposited with an escrow agent to provide the debt service payment on the portion of bonds advance refunded. As a result, \$8,435,000 of bond principal is considered defeased and the liability for these bonds was removed from the basic financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$1,390,160. The amount is recorded as a deferred outflow of resources and amortized over the remaining life of the refunded debt which is shorter than the life of the new debt issued. The advance refunding resulted in an economic gain of \$994,006.

The annual principal installments for each of the outstanding issues vary each year. As of August 31, 2013, the debt service requirements of bonded indebtedness to maturity are as follows:

Year Ended August 31,	Principal	Interest	Total
2014	\$ 3,485,000	2,856,878	6,341,878
2015	3,635,000	2,715,336	6,350,336
2016	3,805,000	2,566,266	6,371,266
2017	3,615,000	3,031,492	6,646,492
2018	4,375,000	2,281,090	6,656,090
2019 - 2023	23,454,984	9,848,872	33,303,856
2024 - 2028	26,250,000	3,261,077	29,511,077
2029	1,155,000	49,088	1,204,088
Total	\$ 69,774,984	26,610,099	96,385,083

The outstanding Series 2006 and Series 2013 Bonds include both Serial and Capital Appreciation Bonds. The interest shown above, with respect to the Capital Appreciation Bonds, includes the interest to be paid on bonds maturing in the respective years and does not include accrued interest on bonds not maturing in those years.

In the current and prior year, the District defeased outstanding general obligation bonds through the Series 2006, Series 2012, and Series 2013 Refunding Bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the District's financial statements. At August 31, 2013 outstanding bonds of \$18,740,000 are considered defeased.

As of August 31, 2013, there were no general obligation bonds authorized by voters of the District, but unissued.

The District financed the purchase of copiers through a capital lease agreement (the "Agreement") with a finance company. The purchase price of the copiers was \$827,116 which equates to the capital lease principal amount. Under the terms of the Agreement, principal and interest payments of \$14,955 are due monthly beginning on July 16, 2012 through June 16, 2017. At the end of the lease term, the District has a bargain purchase option allowing the District to purchase all copiers for one dollar. Per the Agreement, the District has the option of purchasing the copiers starting in July 2014. The District anticipates exercising this option in June 2015 at a purchase price of \$349,920. The effective interest rate on the lease is 3.55%. Lease payment requirements are as follows:

Year Ended August 31,	Principal	Interest	Total
2014	\$ 159,123	20,337	179,460
2015	486,897	12,573	499,470
Total	\$ 646,020	32,910	678,930

10. FUND BALANCES

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances are included in the Governmental Funds Balance Sheet on page 16.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

11. REVENUES FROM LOCAL AND INTERMEDIATE SOURCES

For the year ended August 31, 2013, revenues from local and intermediate sources in governmental funds consisted of the following:

	General Fund	Debt Service Fund	Nonmajor Governmental Funds	Total
Property taxes	\$ 10,069,909	3,198,796	-	13,268,705
Food service	-	-	558,190	558,190
Investment income	115,080	11,579	8,853	135,512
Penalties, interest, and other tax related income	215,180	73,713	-	288,893
Tuition and fees from patrons	217,021	-	-	217,021
Co-curricular student activities	81,416	-	190,954	272,370
Other	304,868	-	24,961	329,829
Total	<u>\$ 11,003,474</u>	<u>3,284,088</u>	<u>782,958</u>	<u>15,070,520</u>

12. RETIREMENT PLAN

The District's employees participate in the Teacher Retirement System of Texas (the "System"), a public employee retirement system ("PERS"). It is a cost-sharing multiple employer defined benefit pension plan with one exception: all risks and costs are not shared by the District, but are the liability of the State. The System provides service retirement and disability retirement benefits, and death benefits to plan members and beneficiaries. The System operates under the authority of provisions contained primarily in Texas Government Code, Title 8, Public Retirement Systems, Subtitle C, Teacher Retirement System of Texas, which is subject to amendment by the Texas Legislature. During the years ended August 31, 2013, 2012, and 2011 contributions of approximately \$1,213,000, \$1,214,000, and \$1,275,000, respectively, were made by the State. These contributions made by the State on behalf of the District have been reflected in the accompanying basic financial statements as both revenue and expenditures. The System's annual financial report and other required disclosures are available by writing the Teacher Retirement System of Texas, 1000 Red River, Austin, Texas 78701-2698 or by calling (800) 877-0123.

Under provisions in State law, plan members are required to contribute 6.4% of their annual covered salary and the State of Texas contributes an amount equal to 6.4% of the District's covered payroll. The District's employees' contributions to the System for the years ended August 31, 2013, 2012, and 2011 were approximately \$1,354,000, \$1,282,000 and \$1,314,000, respectively, which were equal to the required contributions for the years. Other contributions made from federal grants and from the District for salaries above the statutory minimum for the years ended August 31, 2013, 2012, and 2011 were approximately \$215,000, \$179,000 and \$197,000, respectively, which was equal to the required contributions for the year.

13. RETIREE HEALTH PLAN

Plan Description - The District contributes to the Texas Public School Retired Employees Group Insurance Program (“TRS-Care”), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the System. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.02 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The System issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2011-2013.

Contribution Rates:

Year	Active Member		State		School District	
	Rate	Amount	Rate	Amount	Rate	Amount
2013	.65%	\$ 137,502	0.5%	\$ 105,775	.55%	\$ 116,356
2012	.65%	130,217	1.0%	200,341	.55%	110,188
2011	.65%	133,435	1.0%	205,294	.55%	112,911

14. HEALTH CARE COVERAGE

During the year ended August 31, 2013, employees of the District were covered by a health insurance plan (the “Health Plan”). The District contributed \$175 per month per employee to the Health Plan, and employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. All contributions were paid to a licensed insurer. The Health Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

The District recognizes as revenues and expenditures retiree drug subsidy reimbursements under the provisions of Medicare Part D made by the federal government to the System on behalf of the District. For the year ended August 31, 2013, reimbursements of \$81,584 were received by the System and allocated to the District.

15. RISK MANAGEMENT

The District's risk management program includes coverages through third party insurance providers for property, automobile liability, school professional liability, crime, workers compensation and other miscellaneous bonds. During the year ended August 31, 2013, there were no significant reductions in insurance coverage from coverage in the prior year. Losses in excess of the various deductible levels are covered through traditional indemnity coverage for buildings and contents, and vehicle liability with various insurance firms. Settled claims have not exceeded insurance limits for the past three years.

The District participates in a public entity risk pool for its workers compensation insurance (the Worker's Compensation Plan"), administered by the Texas Association of School Boards Worker's Compensation Self-Insurance Fund. The District pays overhead expenses annually and actual claims liabilities up to a maximum amount determined annually. Claims in excess of the District's guaranteed annual cap are paid by the pool. The Worker's Compensation Plan is documented by contractual agreement. The contract between the District, the licensed insurer and other participants of the self-funded pool is renewable in September 2013, and the terms of coverage and contributions and premium costs are included in the contractual provisions. Under the Worker's Compensation Plan, the District's estimated aggregate liability is \$285,656 for fiscal year 2012-13 of which \$26,470 has been paid. The District's estimated outstanding loss and aggregate liability as of August 31, 2013 was approximately \$50,000. The ultimate amount of the claims loss, net of any recoveries and insurance that the District expects to pay is not determinable at year-end. As a result, no loss contingency has been recognized by the District as of August 31, 2013.

16. COMMITMENTS AND CONTINGENCIES

The District participates in a number of federal financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Single Audit Act Amendments of 1996 through August 31, 2013, these programs are subject to financial and compliance audits. The amounts, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

At August 31, 2013, the District was obligated under operating leases for certain office equipment. Rent expenditures incurred under operating leases for the year ended August 31, 2013 was \$9,332. Future minimum lease payments on these operating leases as follows:

2014	\$	9,332
2015		8,787
2016		5,774
2017		3,768
Total	\$	<u>27,661</u>

17. SHARED SERVICES ARRANGEMENTS

The District participates in a Shared Services Arrangement (“SSA”) which provides speech therapists for special education to member districts, including Hays Consolidated ISD, Bastrop ISD, La Grange ISD, Smithville ISD, the City of Bastrop, the City of Smithville, Bastrop County and Region XIII Education Service Center. All services are provided by the fiscal agent and the member districts provide the funds to the fiscal agent.

18. RESTATEMENT OF GOVERNMENTAL FUNDS BALANCES

In the prior year, the District recognized Foundation and Available School Fund (“ASF”) allotments revenue related to the 2012-13 school year for the four days of school ending August 31, 2012. In accordance with GASB Statement No. 33, Foundation and ASF allotments are considered non-exchange transactions, and as such should not be recognized as revenue until the TEA is obligated to fund the allotments on September 1. Additionally, certain adjustments to prior Foundation allotments have been discovered subsequently by TEA. As a result of these errors, the fund balance in the General Fund at August 31, 2012, as previously reported, have been restated as follows:

Beginning fund balance, General Fund - August 31, 2012	\$ 13,499,013
Effect of adjustments to Foundation and ASF allotments	<u>(441,272)</u>
Beginning fund balance, General Fund - August 31, 2012, as restated	<u>\$ 13,057,741</u>

19. PRIOR PERIOD ADJUSTMENTS TO NET POSITION

In accordance with GASB Statement No. 65, bond issuance costs previously reported as assets in the statement of net position and amortized over the life of the related debt are now recognized as an expense in the year in which the bonds are sold. In addition, (1) certain errors have been corrected for the calculation of capital appreciation on bonds, deferred charges on bond refundings, premiums on bonds, and the allocation between general obligation bonds and accretion payable; (2) certain errors have been corrected for outlays initially recorded as capital assets that were below the District’s capitalization threshold or assets no longer held by the District; and (3) the Foundation and ASF allotment adjustment to fund balance for the General Fund as noted above in Note 18 also effects beginning net position. The effect of these errors and the change in accounting principle is as follows:

Net position - August 31, 2012	\$ 10,216,085
Correction of allocation between general obligation bonds and accretion payable	386,048
Correction of calculation of capital appreciation on bonds	(394,919)
Correction of calculation of bond premiums, net of accumulated amortization	(49,024)
Correction of calculation of deferred charges on bond refundings, net of accumulated amortization	(233,637)

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Board of Trustees of
Elgin Independent School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Elgin Independent School District (the "District"), as of and for the year ended August 31, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control that we consider to be a material weakness.

This firm is not a CPA firm

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness (2013-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Response to Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

The Board of Trustees of
Elgin Independent School District:

Report on Compliance for Each Major Federal Program

We have audited Elgin Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2013. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2013.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2013-002 and 2013-003. Our opinion on each major federal program is not modified with respect to these matters.

The District's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2013-002 and 2013-003 that we consider to be significant deficiencies.

The District's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

ELGIN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED AUGUST 31, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The accompanying schedule of expenditures of federal awards presents all federal expenditures of the Elgin Independent School District (the "District").

Basis of Accounting - The expenditures on the accompanying schedule of expenditures of federal awards are presented using the modified accrual basis of accounting, with the exception of the National School Lunch Program, School Breakfast Program and the Food Distribution Program. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable, and expenditures in the accounting period in which the fund liability is incurred, if measurable. Expenditures in the National School Lunch Program, School Breakfast Program and the Food Distribution Program are not specifically attributable to this revenue source and are shown on the accompanying schedule of expenditures of federal awards in an amount equal to revenue for balancing purposes only.

Relationship to Basic Financial Statements - Expenditures of federal awards are reported in the District's basic financial statements in the Special Revenue Funds.

Relationship to Federal Financial Reports - Amounts reported in the accompanying schedule of expenditures of federal awards agree with the amounts reported in the related federal financial reports in all significant respects.

Valuation of Non-cash Programs - The District values revenues and expenditures for the Food Distribution Program based on the value of commodities received.

ELGIN INDEPENDENT SCHOOL DISTRICT

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED AUGUST 31, 2013

\$300,000

Auditee qualified as low-risk auditee?

yes no

ELGIN INDEPENDENT SCHOOL DISTRICT

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED AUGUST 31, 2013

SECTION II - FINANCIAL STATEMENT FINDINGS

There was one finding required to be reported in accordance with *Government Auditing Standards* for the year ended August 31, 2013. There were no findings or questioned costs required to be reported in accordance with *Government Auditing Standards* for the year ended August 31, 2012.

Findings Relating to Internal Control over Financial Reporting in Accordance with *Government Auditing Standards*:

2013-001

- Criteria: The District records additions to capital assets in compliance with the District's capitalization policy and records disposals of capital assets on a timely basis.
- Condition Found: The District included outlays that were below the District's capitalization policy in its recorded capital asset balance at August 31, 2012. In addition, the District's capital asset balance at August 31, 2012 included assets that were no longer held by the District.
- Effect: Adjustments identified and recorded decreased the District's beginning capital asset and net position balance for the current year by \$1,444,998.
- Recommendations: District management should ensure that policies and procedures are in place so that only outlays in excess of the District's capitalization threshold are recorded as capital asset additions. The District should also review its policies and procedures for monitoring capital asset balances to ensure disposed of capital assets are removed from the District's capital asset detail on a timely basis.
- Corrective Action Plan: The District will implement policies and procedures to ensure assets are capitalized according to the District's capitalization threshold and to ensure disposed of capital assets are removed from the District's capital asset detail on a timely basis. The District has already had a company that specializes in capital asset inventory complete a physical inventory for the entire District. This company will return annually to assist in updating the District's capital asset inventory.

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were two findings required to be reported in accordance with Section 510(a) of OMB Circular A-133 for the year ended August 31, 2013. There were no findings or questioned costs required to be reported in accordance with Section 510(a) of OMB Circular A-133 for the year ended August 31, 2012.

Findings Relating to Federal Awards Reported in Accordance with section 510(a) of OMB Circular A-133:

2013-002

- Criteria: OMB Circular A-87 requires that employees who work solely on a single cost objective must furnish a semi-annual certification that they have been engaged solely in activities supported by the applicable source.
- Condition Found: The District's employees who worked solely on the Child Nutrition program did not complete semi-annual certifications during the current year.
- Questioned Costs: None
- Effect: Noncompliance with requirements of OMB Circular A-87 and OMB Circular A-133 Compliance Supplement if semi-annual certifications are not completed.
- Recommendations: District management should ensure that policies and procedures are in place and functioning so that employees complete semi-annual certifications.
- Corrective Action Plan: The District will implement policies and procedures to ensure that employees complete semi-annual certifications or maintain time and effort activity reports.

2013-003

- Criteria: OMB Circular A-87 requires that expenditures are reviewed and approved in accordance with the District's procurement policy.
- Condition Found: Certain selected expenditures for the Child Nutrition program were paid without proper approval.
- Questioned Costs: Expenditures related to this finding totaled \$55,590.
- Effect: Noncompliance with requirements of OMB Circular A-87 and OMB Circular A-133 Compliance Supplement if expenditures are not reviewed and approved according to the District's procurement policy.
- Recommendations: District management should ensure that policies and procedures are in place and functioning so that all expenditures are properly reviewed and approved prior to payment in accordance with the District's procurement policy.
- Corrective Action Plan: The District will implement policies and procedures to ensure that all expenditures are properly reviewed and approved prior to payment in accordance with the District's procurement policy.
